Posttraumatic Stress Disorder Chronic	309.81	F43.12
Autism	299.0	F84.0

Functioning Impairment Criteria

Must meet two of the following:

1. A medical professional with prescriptive authority has determined that medication is necessary to control the symptoms of mental illness;
2. The person is unable to work in a full-time competitive situation because of the mental illness;
3. The person is unable to work in a full-time competitive situation because of the mental illness;
4. The person is unable to live independently due to mental illness;
5. The person is unable to care for themselves due to mental illness; and
6. The person is homeless or at risk of homelessness due to the mental illness.

Please note the following important guidelines:

1. These diagnostic specifiers do not qualify as SDMI
 - mild, not otherwise specified (NOS), or unspecified;
 - physiological disturbances; or
 - physical factors.
2. It is the responsibility of the diagnosing practitioner to select the correct ICD-10 code and specifier that is also supported in the documentation.
3. If the primary diagnosis is not the qualifying ICD-10 code with the appropriate specifier and supported in the documentation, the application will be denied.
