CSCT Intergovernmental Transfer (IGT)

Starting October 1, 2021, CSCT uses an IGT funding methodology. CMS (Medicaid) requires providers pay a **non-federal state hard match** (state and local funds) before the federal portion can be released. Since the school district is the Medicaid provider of record for CSCT, the school district submits the state match so that claims can be released. The mental health center contracted to provide CSCT services bills on behalf of the school district using the district NPI. Claims that clear review by the Medicaid claims processing system (MMIS) are put in suspend/pending status until the monthly match is made.

The CMHB generates a monthly suspended claims report. From this report, we create match statements for each school district showing the state match amount due. The school district then submits to DPHHS the match payment and the signed certification form stating the funds are non-federal. If the match has been paid in full, DPHHS releases the claims that are pending. School districts are reimbursed once a month (see timeline). This reimbursement includes **both** the state match and the federal portion.

CSCT Intergovernmental Transfer (IGT)

CSCT IGT Statement Email

By the first of the month all school districts with claims on the IGT report will receive an email with the following information:

- Spreadsheet with detailed ICN claim information for match payment
- Due date for the state match payment and certification form
- Links to AccessGov and Online Payment Portal
- Where to mail checks
- Who to contact if you have questions
- Important reminders including trainings, FMAP updates, new links, etc.

AccessGov and Payment of State Match

AccessGov/Engagement Builder Website

DPHHS utilizes the AccessGov/Engagement Builder platform.

School districts are able to:

- Download state match statement(s)
- Download certification form(s)
- Upload PDF of signed certification form
- Select payment method

CSCT IGT Timeline

The IGT timeline, approved by CMS, outlines when school districts can access statements, when payments are due, and when reimbursements will be sent.

School districts have **10 business days** to submit their non-federal state match payment and their signed certification form in order for claims to be released.

(The [IGT Timeline by Month](#) for school districts is available online.)

Please refer to the SFY 2025 calendar below to determine the month in which claims are submitted.

Remittance Advice/Reconciliation

The Remittance Advice (RA/e!SOR) shows the status of claims. Please use the remittance advice to reconcile claims – not the state match statement received the first of the month. That statement is used to calculate the match amount due.

Information on the remittance advice that may be helpful:

- **CSCT Procedure Codes:** H0036 or H2027
- **Claim Status:** Paid, Pending (Suspended), or Denied. Suspended CSCT claims that are “pending” with remark code 133 are claims that will be released once the IGT state match has been met. The month in which claims are pending is based on when a clean claim is received, not on the date of service.
- **Service Dates**
- **Amount Billed**
- **Amount Allowed** by Medicaid
- **ICN**
- **Team Number**
- **Student Name and Medicaid Number:** **** This is PHI so always send remits via secure file transfer.****

FAQs

Q: What happens if I miss the deadline?

A: If you miss the deadline to submit your match payment and/or certification form, claims will rollover to the next month until the match is met. There is no penalty for letting claims roll over but be aware claims may then be subject to changes in the FMAP or rate increases that affect the calculation of the state match. If that occurs you will receive a certification form that reflects that adjustment.

- The next potential FMAP change will occur October 1, 2024, at the start of the next Federal Fiscal Year. Check the reminders in your monthly statement email for more information.

Q: In Step 1, I entered my NPI, saw what bills were available but when I clicked on “Next” no certification form or statement was available.

A: If you receive a “No bills were selected to display on certificate” message, click on the “Previous” button to return to page showing statements that are available to view and download. Then select the square radio button to the left of the statement(s) you wish to access. Then go to “Next” again and it should display.

FAQs

continued

Q: We no longer have CSCT services, why do I still get a statement?

A: Your district will receive a statement even if you are no longer providing CSCT services if there are pending claims on the report. There are several reasons this may occur. If no match payment has been submitted or the payment is received after the due date the claims will roll over. Also, providers have 365 days to submit claims to Medicaid so the mental health center may be wrapping up billing.
