National Census Data for Veterans

Prior to Medicaid expansion Montana had the highest percentage of uninsured veterans in the nation. About 9,000 Montana veterans don't have adequate coverage.

Source: Urban Institute report from May 2012 using data from the U.S. Census American Community Survey ACS), an annual survey fielded by the U.S. Census Bureau

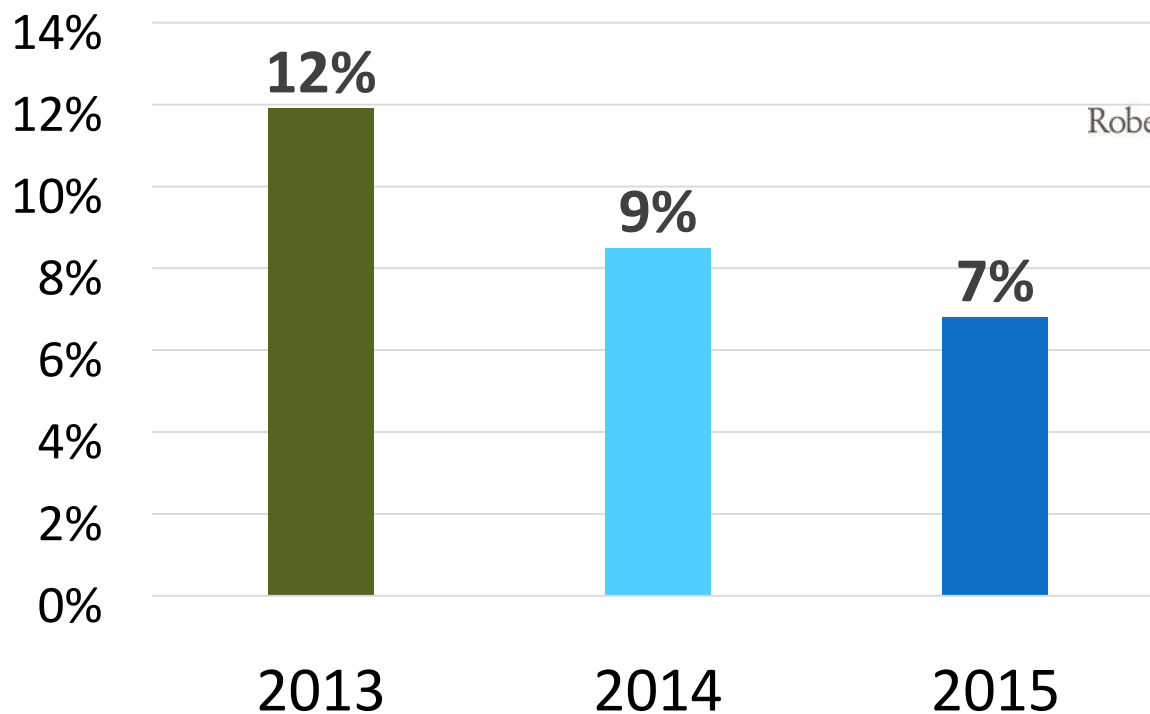

Experience from earlier expansion states:

National Health Interview Survey Data for Veterans

- ✓ Between 2013 and 2015, the uninsured rate for nonelderly veterans fell by an estimated 42 percent.
- ✓ 2013-2014 drop in uninsured veterans for expansion states 2.9 percentage points versus 2.0 for non-expansion states.

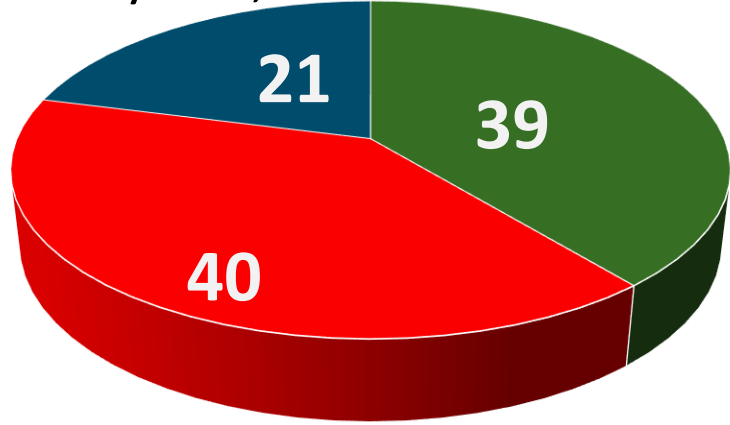

Robert Wood Johnson Foundation

Source: National Health Interview Survey. RWJ analysis of national data from the 2011 civilian noninstitutionalized population conducted by the Centers for Disease Control and Prevention's National Center for Health Statistics (NCHS), a survey of the

Uninsured Veterans in non-expansion states

✓ If Medicaid expansion decisions do not change between now and 2017, approximately 604,000 veterans will be uninsured in 2017.

- Qualify for Exchange Coverage
- Coverage Gap
- Earn income above Medicaid or tax credit level

Helping Montanans move up the economic ladder

An analysis conducted by the Montana Department of Labor found that **2/3** of those eligible for the HELP Act are employed.

The HELP Act also offers Montanans new help finding work and help getting new job skills or education.
