

**Table F: State-wide Implementation of Improvement Strategy**  
**Evaluation of State-wide Improvement Strategy Implementation**

Using the best, essential and required practices, Part C provider(s) will implement Ages and Stages Questionnaire-Social Emotional 2<sup>nd</sup> Edition and use social emotional assessment information to promote and improve social-emotional competence for infants and toddlers with disabilities and their families.

| Activities/Outputs   | Measurement/Data Collection Methods   | Timeline (projected initiation and completion dates) |
|--|---|--|
| Identify resources available and obtain needed screening and/or assessment tool for each Part C provider.  | Resources selected and available for program staff, Quality Improvement Specialist, and Part C Coordinator.                       | July 1, 2017   |
| Part C provider(s) identify training timeline for ASQ: SE2 and any other multi-domain assessment.  | Timelines submitted to Part C Coordinator and Quality Improvement Specialist.   | August 2017  |
| Implement ASQ: SE2 training and any identified multi-domain assessment training (including sharing information, assessing skills and knowledge, providing opportunities for active participation). | Training agenda and materials and trainer report after the training. Pre and post-tests completed by participants.                | August 2017 – October 2017                           |
| Process/protocol for how and when screeners and assessments developed by demonstration site provided to all Part C provider(s) for dissemination to staff.   | Protocol disseminated to program staff, Quality Improvement Specialist, and Part C Coordinator.                                   | August 2017  |
| Offer peer to peer support, for reflection and sharing knowledge using methods such as face to face meetings, phone calls, use of technology, etc.   | Peer to peer support system developed and is documented for review by Quality Improvement Specialist and Part C Coordinator.      | October 2017 – June 2019                             |
| Observe in person, through scheduled observations, and feedback to ensure fidelity in implementing screener, assessments, and processes.   | Fidelity checklists completed by Part C provider(s).<br>Fidelity checklists monitored by Quality Improvement Specialist annually. | October 2017 – June 2019                             |

| Type of Outcome     | Outcome Description   | Evaluation Questions   | How will we know the intended outcome was achieved? (performance indicator)  | Measurement/Data collection methods  | Timeline (projected initiation and completion dates) |
|---------------------|---|--|--|--|--|
| Short-term Outcomes | FSS's have access to and participate in high quality training.  | Have FSS's participated in trainings related to assessing and addressing children's social-emotional development?  | 80% of FSS's access and participate in high quality training.  | Program's FSS training records.  | July 1, 2017 – June 30, 2019                         |
|                     | FSS's acquire knowledge, skills, confidence in facilitating learning regarding children's social-emotional development. | Are FSS's demonstrating knowledge, skills, and competency in best practices in working with children and their families on social-emotional outcomes?  | 80% of FSS's demonstrate knowledge, skills, and competency.  | Program's monitoring documentation:<br>Supervisory Reports<br>Family Reports<br>Outcomes documentation<br>Home visit documentation<br>Fidelity checklists<br><br>Staff survey                  | July 1, 2017 – June 30, 2019                         |
|                     | Procedures and protocols for practices to improve children's social- emotional development are institutionalized.       | Are FSS's following procedures and using identified protocols to improve social-emotional development for children?<br>Are FSS's consistently implementing interventions and services to meet social-emotional outcomes? | 80% of FSS's follow procedures and protocols for social-emotional development assessments and practices.<br>80% of FSS's implement interventions and services to meet social-emotional outcomes. | Self-assessment complete weekly until fidelity is achieved and then monthly.<br><br>Program's monitoring documentation includes:<br>Coaching logs;<br>Supervisory reports;<br>Fidelity checks. | July 1, 2017 – June 30, 2019                         |

| Type of Outcome       | Outcome Description   | Evaluation Questions  | How will we know the intended outcome was achieved? (performance indicator)  | Measurement/Data collection methods  | Timeline (projected initiation and completion dates) |
|-----------------------|---|---|--|--|--|
| Intermediate Outcomes | FSS's demonstrate competency in:<br>Screenings<br>Assessments<br>Communication with families<br>(assessments, why social-emotional development is important, resources available, how to promote social-emotional development during the course of a child and family's daily routines) | Are FSS's implementing strategies for strengthening families' skills and confidence to help their child improve social-emotional outcomes?<br><br>Are FSS's monitoring progress on social-emotional outcomes and modifying action steps and/or specified outcomes based on data?<br><br>Are FSS's making referrals to specialists as appropriate? | 80% of FSS's implement strategies to strengthen families' social-emotional skills while working with their child.<br><br>80% of FSS's monitor progress on social-emotional outcomes and include modifications or altered outcomes.<br><br>80% of IFSPs reviewed note appropriate referrals to specialists. | IFSP reviews.<br><br>Home visit documentation.<br><br>Family surveys.<br><br><br>IFSP reviews.<br><br>Home visit documentation.<br><br>Supervisory observations. Family surveys. IFSP reviews. Home visit documentation. Family Surveys. | July 1, 2017 – June 30, 2019                         |
|                       | Assessments of children's social-emotional development are meaningful, useful, and valid.   | Are FSS's effectively using assessments in identifying and prioritizing to develop social-emotional outcomes for IFSPs?   | 80% of FSS's use assessments to identify and prioritize social-emotional outcomes for IFSPs.   | IFSP reviews.<br><br>Supervisory observations.<br><br>Staff survey.  | July 1, 2017 – June 30, 2019                         |

| Type of Outcome    | Outcome Description   | Evaluation Questions   | How will we know the intended outcome was achieved? (performance indicator)  | Measurement/Data collection methods   | Timeline (projected initiation and completion dates) |
|--------------------|---|--|--|---|--|
|                    | Increased number of IFSPs with social-emotional outcomes.   | Is there an increase in the number of social-emotional outcomes listed in IFSPs?   | 20% increase in FFY 2016 and each year thereafter.   | Random sample of program's IFSPs using the EI Module:<br>Evidence of connection between assessment and outcomes/plans;<br>Evidence of increased number of IFSPs with social-emotional outcomes. | July 1, 2017 – June 30, 2019                         |
| Long-term Outcomes | Families have improved capacity to advocate for and address children's social-emotional needs.  | Are families better able to advocate for and address their child's social-emotional needs?   | 75% of families report they are better able to advocate for their children and address their social-emotional needs. | Family survey.<br>Family interviews.  | July 1, 2017 – June 30, 2019                         |
|                    | Families have knowledge, skills and confidence to implement social-emotional strategies within their daily routines and understand why social-emotional development is important. | Have families gained skills and knowledge, therefore, strengthening their ability to help their children reach their social-emotional potential? | 75% of families report they are able to help their children reach their social-emotional potential.                  | Family survey and randomized interviews with family members.  | June 2019  |

| Type of Outcome | Outcome Description  | Evaluation Questions  | How will we know the intended outcome was achieved? (performance indicator)   | Measurement/Data collection methods  | Timeline (projected initiation and completion dates) |
|-----------------|--|---|---|--|--|
|                 | Families feel empowered to address child's needs.  | Are families more engaged in early intervention services for their child?   | 75% of families report high levels of engagement in early intervention services for their child.                              | Family survey and randomized interviews with family members.                         | June 2019  |
|                 | Children enrolled in Part C will demonstrate increased growth in social-emotional development so that they are better equipped to participate in the next steps toward social and academic success following their exit from Part C. | Have more infants and toddlers exiting early intervention services demonstrated an increase in the rate of growth in positive social-emotional development? | 78% of infants and toddlers exiting early intervention services demonstrate increased growth in social-emotional development. | Data reported for APR Indicator C3, which is collected at entry and exit using COSP. | June 2019  |
